The simplest plate in the world and one of the best for losing weight: lean protein, a good carb and vegetables freely.

**25 min**

PREP

1 serving

MAKES

~470

BASE CAL

INGREDIENTS (BASE SERVING)

- 1 chicken breast fillet (about 5 oz)
- 4 tablespoons cooked brown rice
- 1 plate of broccoli
- 1 clove of garlic, chopped
- 1 teaspoon olive oil
- juice of ½ lemon
- salt and pepper to taste

HOW TO MAKE IT

- 1 Season the chicken on both sides with salt, pepper, the garlic and the lemon juice. Let it take on flavor for 5 minutes.
- 2 Cut the broccoli into small florets. Boil water in a pot, add the broccoli and leave just 3 minutes, until bright green and tender but still firm. Drain.
- 3 Heat a nonstick pan over medium-high heat with the olive oil. Add the chicken and leave 4 to 5 minutes per side, without stirring, until golden outside and white inside.
- 4 To check it is done, cut into the middle of the fillet: the meat should be white, with no pink part.
- 5 Warm the already-cooked brown rice. Build the plate with the rice, the sliced chicken and the broccoli beside it.
- 6 If you like, drizzle the broccoli with a little olive oil and a bit more lemon.

WHY IT HELPS YOU SLIM DOWN

Cutting the beef into thin strips goes further: a small portion looks like much more on the plate. Sautéed fast over high heat with peppers, it stays juicy and full of flavor with no greasy sauce. The peppers add color, vitamins and fiber for almost no calories.

Homemade Lean Beef Burger with Salad

The burger that beats the craving and still helps you slim down — made at home with lean beef, no greasy bun.

**20 min**

PREP

2 servings

MAKES

~440

BASE CAL

INGREDIENTS (BASE SERVING)

- 9 oz lean ground beef
- ½ onion, finely chopped
- 1 clove of garlic, chopped
- salt, pepper and parsley to taste
- 1 teaspoon olive oil
- 2 whole-grain burger buns
- lettuce, tomato and onion slices to build

HOW TO MAKE IT

- 1 In a bowl, mix the ground beef with the chopped onion, the garlic, salt, pepper and parsley. Knead with your hands just until it holds together, without overworking it (or the burger turns tough).
- 2 Divide the beef in two and shape two patties, pressing flat with your hands. Make a small dimple in the center of each with your thumb — this stops them puffing up in the middle.
- 3 Heat a nonstick pan with a few drops of olive oil over medium-high heat. Add the burgers and leave 3 to 4 minutes per side, without pressing with the spatula, until golden outside and cooked to your liking inside.
- 4 If you like, lightly toast the whole-grain buns, cut open, in the pan.
- 5 Build it: bun, lettuce, the burger, tomato and onion. Close and serve. For an even lighter version, eat the burger without the bun, with a generous salad on the side.

WHY IT HELPS YOU SLIM DOWN

The problem with a fast-food burger is the fatty meat, the sauce and the frying. Made at home with lean beef and grilled with no oil, it becomes pure protein. Eating it with plenty of salad and little (or no) bun, you beat the craving without blowing your calories.

WHY IT HELPS YOU SLIM DOWN

Parmigiana gets fattening because of the frying and the excess cheese. Breaded with whole-grain crumbs and baked in the oven, it comes out crispy with a fraction of the fat. A bit of low-fat cheese on top beats the craving for something gratinated, and the salad balances the plate.

BASE CAL

INGREDIENTS (BASE SERVING)

- 1 cup rice (arborio or regular)
- 2 chicken breast fillets, cubed (about 10 oz)
- 1 carrot, diced
- ½ cup peas
- 1 onion, chopped
- 1 clove of garlic, chopped
- 1 teaspoon olive oil
- 1 tablespoon grated cheese
- salt, pepper and parsley to taste
- homemade vegetable stock or hot water (about 3 cups)

HOW TO MAKE IT

- 1 Season the chicken cubes with salt and pepper. Heat the olive oil in a pot and brown the chicken for 5 minutes, stirring. Remove and set aside.
- 2 In the same pot, fry the onion and garlic for 2 minutes. Add the rice and stir for 1 minute, just to coat the grains in the seasoning.
- 3 Start adding the hot stock a little at a time, one ladle at a time, stirring constantly. Only add more stock when the previous one has almost dried up.
- 4 Halfway through cooking (about 10 minutes), add the carrot and the peas. Keep stirring and adding stock.
- 5 When the rice is soft and creamy (about 18 to 20 minutes total), return the chicken, add the grated cheese and stir. Turn off, sprinkle parsley and serve right away.

WHY IT HELPS YOU SLIM DOWN

Traditional risotto uses lots of butter and cheese. Here, the creaminess comes from the rice's own starch released as you stir, with just a touch of cheese. With plenty of chicken and vegetables, the dish is hearty and satisfying, proving you can eat risotto with no guilt.
