Three ingredients you already have at home, ready in 10 minutes — and they keep you full until lunch.

BASE KCAL

INGREDIENTS (BASE SERVING)

- 1 ripe banana
- 1/2 cup rolled oats (about 4 tbsp)
- 1 egg
- 1 pinch of cinnamon
- 1 pinch of baking powder (optional, makes them fluffier)
- a little oil or cooking spray for the pan

HOW TO MAKE IT

- 1 Peel the banana and put it on a deep plate. Mash it well with a fork until it turns into a smooth purée, with no big lumps.
- 2 Add the egg and stir until everything is well mixed.
- 3 Add the oats, the cinnamon and the baking powder. Stir and let it rest for 3 minutes — the oats soak up the moisture and the batter firms up, which makes it easier to flip later.
- 4 Heat a nonstick pan over medium-low heat and brush it with a little oil (or use spray).
- 5 With a spoon, drop small portions of batter into the pan, about the size of half your palm. Small pancakes flip much more easily than big ones.
- 6 Let them cook for 2 to 3 minutes, until small bubbles appear on top and the edges set. Flip them carefully and brown the other side for another 1 to 2 minutes.
- 7 Serve warm. If you like, finish with banana slices, a handful of berries or 1 tsp of honey.

WHY THIS HELPS YOU LOSE WEIGHT

Oats are rich in fiber, which slows down digestion and keeps you full for hours — that is what prevents the mid-morning hunger that makes you snack. The banana brings natural sweetness with no added sugar, and the egg brings protein to protect your muscle while you lose fat.

- 1 large handful of fresh spinach leaves
- 1 slice of wholegrain bread

- 3 Heat the olive oil in a nonstick pan over medium heat. Add the spinach and stir for 1 minute, just until it wilts (the leaves go soft).
- 4 Turn the heat down, pour the beaten eggs over the spinach and leave them for 30 seconds without stirring.
- 5 With a spatula, push the eggs slowly from the bottom to the center, until they are creamy and still moist. Turn off the heat before they dry out.
- 6 Toast the slice of wholegrain bread. Serve the eggs on top or beside it, with tomato slices if you like.

Banana and Berry Smoothie Bowl

Thick enough for a spoon, cold and colorful — it looks like ice cream, but it works for your weight loss.

**6 min**

TIME

1 serving

MAKES

~320

BASE KCAL

INGREDIENTS (BASE SERVING)

- 1 frozen banana in slices
- 1 handful of frozen berries
- 3 tbsp plain yogurt
- 3 tbsp milk (or plant drink)
- 2 tbsp oats and fresh fruit for the top

HOW TO MAKE IT

- 1 Use the banana already frozen (cut it into slices the night before and freeze it) — that is what makes the smoothie thick without ice.
- 2 In the blender, put the banana, the frozen berries, the yogurt and the milk.
- 3 Blend on high (top speed), stopping to stir with a spoon when it gets stuck. Add milk only one spoon at a time, the minimum needed to blend. The texture has to stay thick, like ice cream.
- 4 Pour it into a bowl.
- 5 Top with the oats and the fresh fruit in neat rows. Eat right away, with a spoon, before it melts.

Poached Eggs with Asparagus and Toast

As elegant as a restaurant breakfast, simple enough for an ordinary day.

**12 min**

MAKES

BASE KCAL

INGREDIENTS (BASE SERVING)

- 2 eggs
- 1 handful of asparagus
- 1 slice of wholegrain bread
- 1 tsp vinegar (for the water)
- salt, pepper and olive oil to taste

HOW TO MAKE IT

- 1 Wash the asparagus and cut off the hard base. Cook it in boiling salted water for 3 minutes, drain and set aside.
- 2 In a pot, heat water until it is almost boiling (with small bubbles, not bubbling hard) and add the vinegar.
- 3 Crack each egg into a cup. Make a whirlpool in the water with a spoon and slide the egg in very slowly at the center — the movement wraps the white around the yolk.
- 4 Cook for 3 minutes for a soft yolk. Take it out with a slotted spoon and rest it on a paper towel.
- 5 Toast the bread. Build it with the asparagus underneath, the poached eggs on top, a little olive oil, salt and pepper.
